## WORK EXPERIENCE

### PHYSICIAN ASSISTANT

*Jan 2016 - Present*

#### **ABC Hospital / Boston, MA**

- Manages all aspects of clinical care and clinical staffing in various SNF/LTC settings.
- Provides primary care, urgent care, non-emergent and emergent care for adult and pediatric patients of all ages with minor emergencies to include but not limited to traumas, fractures, joint dislocations, lacerations, and abscesses.
- Performs various procedures such as incision and drainage (I&D) of abscesses, suturing and stapling of lacerations of various size and shape, gynecologic and pelvic examinations with STI screening, removal of foreign bodies, and ocular staining to rule out abrasions.
- Assesses the physical and psychological health status of patients by obtaining history of present illness.
- Performs special screening tests, orders pertinent laboratory tests and radiology tests and utilizes the results to help determine initial diagnosis and disposition of patient's medical issue.
- Documents complete medical visit by recording through oral dictation, via landline phone system for reporting of patient's care on the day of the visit satisfying Patient First (PF) medical center policies and billing and coding requirements.

### PHYSICIAN ASSISTANT

*Jan 2010 – Dec 2015*

#### **Longfellow Hospital / Boston, MA**

- Sole Advanced Practice Provider (APP) working with a collaborative agreement under the supervision of five Primary Care Physicians and one Internal Medicine Physician responsible for the provision of health care services and same day access to care for newly assigned and established patients.
  - Performed physical exams and diagnostic procedures and ordered laboratory and diagnostic studies appropriate to the patient's complaint.
  - Conferred with assigned physician in regard to patient's physical and mental condition and provided referrals as appropriate to mental and physical health needs, to include psychiatry referrals and home health assistance.
  - Worked closely with Practice Manager and supervising physicians to manage utilization of health care resources. Maintained accurate records and files as necessary.
  - Completed insurance forms and other paperwork such as school and sports physicals, FMLA, and disability forms.
  - Utilized SMG Continuous Quality Improvement (CQI) program to enhance quality of practice outcomes.
  - Electronically prescribes medications to local pharmacies that are not readily available within the PF pharmacy.
  - Utilized EPIC Electronic Medical Records (EMR) and patient registries per office protocols.
-
